SouthEast Asia-Pacific AudioVisual Archive Association

28th SEAPAVAA CONFERENCE

10-14 June 2024

Solo, Central Java, Indonesia

Local Host Institution: National Archives of the Republic of Indonesia (ANRI)

Theme: Navigating New Horizons in Audiovisual Archiving

Call for Proposals

At the 22nd SEAPAVAA Conference in 2018, participants explored the practices of AV archiving beyond conventional boundaries, encompassing technological innovation, international collaboration, embracing exchange and outreach to new communities across borders.

Fast forward to 2024. The archiving world has experienced significant disruptions in multiple ways. The 28th SEAPAVAA Conference in the UNESCO recognised region of Central Java, Indonesia, provides an excellent opportunity for attendees to explore the new horizons beckoning (and summoning) AV archives.

The evolving archiving landscape is seeing technology and artificial intelligence rapidly advancing. Climate change and sustainability concerns are taking center stage, and imaginative collaborations are taking shape between archival institutions, creative industries and beyond. The management of archives now requires resourceful, resilient, and inventive thinking and action.

The two-day symposium scheduled for 11-12 June 2024 is the platform for exploring the wide range of issues, methodologies, experiments, products and to stimulate new conversations amongst conference participants, speakers, and vendors.

We welcome proposals that explore but are not limited to the following topics. We also encourage submission of proposals on other topics related to your AV collection, workflows, research, or management:

- Disaster Management and Adapting to Challenges in Archiving
 - Physical disaster recovery
 - Digital disaster risk management and recovery
 - Analogue and digital – balancing attention, funding, and the practicalities of a diverse collection
 - Climate change and sustainable futures
