# Can LOD and/or data exchange be of use for smaller institutions?

Yes! But we'll need common systems that are:

- Open
- Free
- Easy to use (doesn't require expertise)
- Shared by a large community

# EN15907 – [www.filmstandards.org](http://www.filmstandards.org)

# Preparing for LOD

- Common UUIDs for cinematographic works
- Common UUIDs for agents (persons)
- API:s (or other means of export/import)

# UIDs for Cinematographic works

# Who performs the grunt work?

We created a very rudimentary record for a new Swedish feature film in Wikidata. Within a week it had been updated 56 times by other users:

Genre, Country of origin, Language, Publication Date, Director, Screenwriters, Cast members, Production company, Identifiers etc.
