Madame Marion Michelle,
Executive Secretary,
International Federation of Film Archives,
38 Avenue des Ternes,
Paris xviii.

Dear Madame Michelle,

Thank you for your letter of February 14th. Mr. Lindgren did tell me about the Yearbook and advised me to contact you. However, I did not know that one of our members was nominated at the 19th F.I.A.F. Congress to the Commission for Film Historical Research. Please will you tell me who it is? Naturally, I am always anxious to hear of any news affecting the Society and its members.

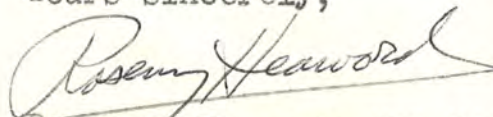

Please would you also very kindly tell me about the aims and objects of this Commission. Have you any documents, with details of its functions? This would be of great help in discussing the matter with our Committee.

Those of our members likely to have interesting material concerning Lumière are being contacted. We note that Professor Toeplitz wishes to know of contributions in advance and that the material is to be sent to the Paris Secretariat.

Enclosed you will find a specimen of our journal, CINEMA STUDIES, the Newsletters, List of Members for 1963 and the Constitution (with the two recent amendments), together with copies of the Society's brochure. We hope you will find these useful for your files and will be only too glad to answer further questions.

Before closing, I would like to remind you that I attended the F.I.A.F. Congress at Stockholm in 1959. That was in the first year of the Society's life - a great deal has happened since then!

Yours sincerely,

Rosemary Heaword, Hon. Secretary.
