

INTERNATIONAL INDEX  
TO FILM PERIODICALS

INTERNATIONAL INDEX TO FILM PERIODICALS, a project of the International Federation of Film Archives (FIAF) begun in January 1972, is now available in the form of standard 5" x 3" library cards, to institutions outside FIAF.

The 67 periodicals indexed have been selected by the FIAF Commission of Documentation as representative of the countries in which they are issued and likely to contain material of lasting value from an aesthetic, historical, or critical point of view. They include, for example, SIGHT AND SOUND, ISKUSSTVO KINO, CAHIERS DU CINEMA, FILM QUARTERLY, and SCREEN.

Articles are indexed by original film titles, personalities and subject, annotated in English. The cards have a flexible format allowing the librarian to use various filing systems. They are mailed by air several times a week, and in most cases, the cards for overseas publications are received before the periodicals themselves.

There will be approximately 8,000-9,000 entries in 1973. The R.R. Bowker Company of New York will publish the index in book form in annual volumes, beginning with the 1972 index in the spring of 1973.

The subscription price for all cards issued in 1973 is \$300,- for European, and \$325,- for non-European subscribers.

Inquire about availability of card sets for 1972. Please address subscriptions and inquiries to:
