Proposal for the operation of the microfiche services
of the "International Index to Film Periodicals"

The dispatches of the microfiche service will be mailed eleven times per year, starting in March 1983. Each dispatch will be a complete record for the year up to that point, and on receipt of it the previous dispatch should be discarded. The eleventh (last) dispatch each year will incorporate the complete indexing of previous years back to, and including 1982. In this way, there will never be more than three different places in which to search through the entire records of the Index, that is the current year, the previous end-of-year cumulation and the ten-year cumulation.

However, following the procedure outlined above, the 1982 film index would not be available on microfiche until March 1984. We would therefore intend to produce a cumulation of that year in March 1983, which we would offer free of charge to purchasers of the ten-year cumulation in order that they may have a complete run on microfiches.

Five and ten-year cumulations are anticipated for the future.

Proposal for the operation of the microfiche service
of the "International Index to TV Periodicals"

The dispatches of the microfiche service will be mailed eleven times per year, starting in March 1983. Each dispatch will be a complete record for the year up to that point, and on receipt of it the previous dispatch should be discarded. From 1984 the eleventh (last) dispatch of each year will incorporate the complete indexing of previous years.
