e) Promotion

American Film Institute had sent \$9797.12 as receipts for the 1981 and 1982 volumes. The list of Standing Orders and final accounts were still outstanding but promised soon. The AFI reported difficulty in chasing subscribers who had not paid.

George Walsh of St James had agreed to act as distributor for the Film and TV Indexes. A letter outlining terms had been received and Michael was asking St James to consider marketing the microfiche services also. St James were prepared to let FIAF continue selling to existing subscribers direct, and/or market only in North America. Michael would continue to negotiate and report development to Milka as soon as possible. It was unanimously agreed that the offer was very generous.

In the meantime Michael would send a selective publicity mailing with both brochures to non-US addresses.

Michael would also check "Microforms Annual" and prepare an entry.

Karen also reported on the publication "Libraries in the UK" (Library Assn./Oryx) which should be checked against the PIP mailing list.

Two reviews in German had been received. Publicity had been displayed at the International TV Studies Conference in London (July 1984), at the 'Audiovisual Librarian' conference in Exeter (July 1984) and at the FIAT Congress (Madrid, Oct. 1984)

Details of countries where it is difficult to obtain information should also be sent, with the list, to Milka and other members of the Documentation Commission. Help from other FIAE members would then be sought. If it was possible this list to be compiled by April 1985. If possible Jana to be asked to send in addition, the lists of which periodicals each service covered to members of the PIP Working Group only.

The final list of services could be included in the annual volumes, the Handbook and kept up-to-date by the Documentation Commission. The possibility of reducing the final information, including the lists of titles indexes by each service, by xeroxing and then microfilming was also discussed.

g) Supporters

The 1984 invoices have been sent to original supporters and Amsterdam (who paid £200) and Canberra (nothing received so far). Invoices to be sent to UCLA and AFI via Bob Rosen, and to Paul Spehr at LC using words 'additional subscription'.

The 1985 invoices Michael to send 2 invoices to all European supporters for subscription and support. An accompanying letter to state that the subscription rate remains at the level for 1984 as well as the support rate. If the support rate is lowered during the New York meeting supporters will be reimbursed. If UCLA, AFT and LC pay as a supporter in 1984 they should receive a single invoice in 1985 combining subscription and support amounts and calling the total 'subscription'.
