As you will recall in reference to our letter of January 24th, the F.I.A.F. Yearbook will devote a chapter to Louis Lumière, including a bibliography, citations, list of films in members' collections, biography, and finally critical articles.

It is to you as a member of the Historical Research Commission that we address a request for an article on Lumière, his influence, or any other related subject of your choice. If you are interested and can find the time for the preparation of such an article by the end of March, would you be so kind as to indicate the subject to the President at your earliest convenience so that he can plan this aspect of the chapter accordingly?

With many thanks,

And sincerely yours,

Marion MICHELLE
Executive Secretary
