Dear Vladimir,

Thank you very much for your very interesting proposal concerning the 25th anniversary of the UNESCO Recommendation. During it's meeting in Belgrade the fiaf Executive Committee discussed this proposal and we all considered it a project to be supported. Boris Todorovitch (CNC) informally gave his consent to support the organisation of a film programme, and fiaf will ask its membership to contact their national UNESCO committees and suggest the commemoration of the 25th anniversary of the UNESO Recommendation with a day: World Day of Audio-visual Heritage.

We discussed at the same time the possibilities to investigate about the change from Recommendation to Convention of this important document. In view of the fact that worldwide many audio-visual materials are still lost we felt that steps in that direction would be necessary.

Hoping to find your assistance in this project as well I look forward to hear about the progress of your discussions and will keep you informed about our activities.

Sincerely,

All the best,
Eva-
